Subject RE: Passaic River Contaminated Sediment Removal: Request for an Interview

Hi Dave -- I'm out all this week and half of next week. Will this still be timely if I get it to you at the end of next week? Thanks

Subject: Passaic River Contaminated Sediment Removal: Request for an Interview

Hi. You're getting this email because your input is needed in the development of a community involvement program for the contaminated sediment removal project that will be undertaken in the lower Passaic River by Tierra Solutions, Inc. under EPA oversight. Answers to these questions will be used by EPA to develop a community involvement plan that will be issued next month. General background on the project and sources of additional information are included as an attachment and may be helpful to you in answering the questions. A removal fact sheet is also attached for your information.

There are ten basic questions in the attached questionnaire. I am requesting your input by October 31 if possible. I will take the input in whatever form is easiest for you: email, fax or phone. If

you cannot or do not want to participate in this process, please reply back to me. Not a problem. If you do not have time to fill out the form, I will be more than happy to call you and fill out the forms for you based on your verbal input over the phone. Thanks in advance for your consideration of this request.

David Kluesner
